## ~ Assembly Instructions ~

### STEP ONE

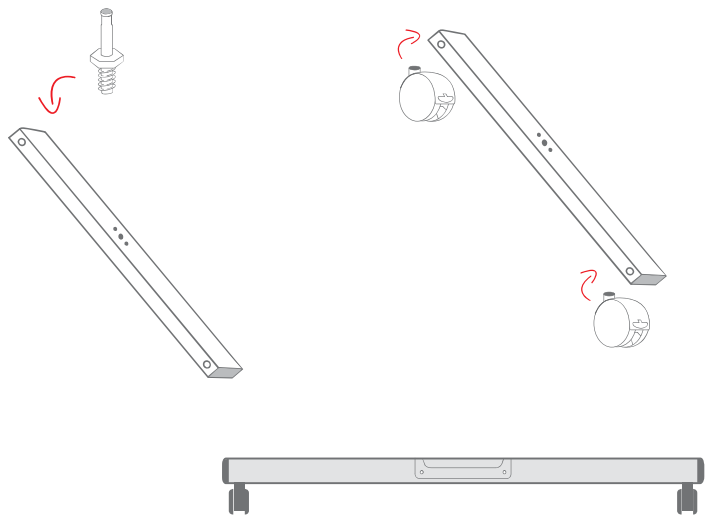

Fit 4 of the end caps (A) on to both ends of the caster bars (B), fit the last two remaining end caps on to the open ends of the upright members (C). Tap the end caps on with a mallet to ensure they are fully inserted.

### STEP TWO

Screw the caster shafts (D) onto the caster bars (B), using a spanner to make sure that they are fully tightened.

Next attach the casters (E) to the shafts by pushing them on firmly.

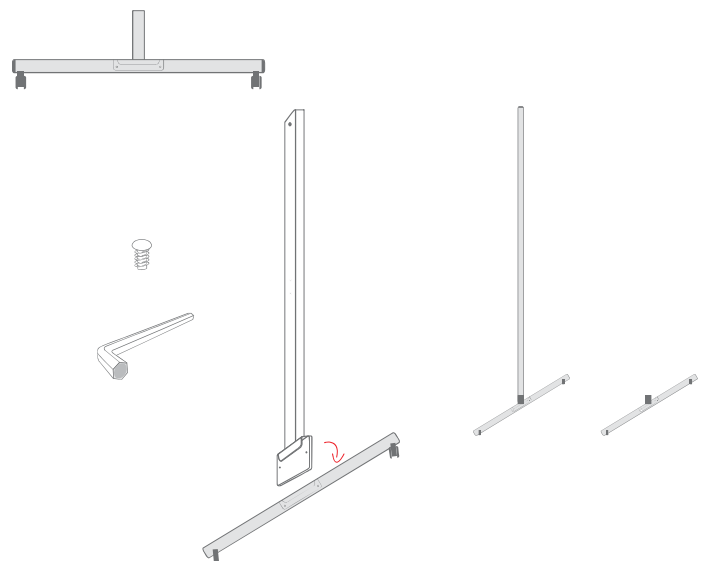

### STEP THREE

Align the holes of one of the upright members (C) with the holes of one of the caster bars (B), ensuring that the shorter side of the saddle is facing in towards the whiteboard.

Using the (F) 3mm allen key and the 4 x M5 16mm (G) bolts join uprights to the castor bars.

Repeat this process for the second upright and castor bar.

### STEP FOUR

Using the (H) 5mm Allen key and the 2 x M8 50mm bolts (I) join the (J) lower cross member to both uprights / castor bars making sure the shorter side of the upright saddle is on the inside.

### STEP FIVE

Using the remaining 2 x M8 50mm bolts (I) to loosely join upper (K) cross member to stand.

### STEP SIX

Align the holes of one side of the board with the holes on the swivel mechanism (L) and secure together using the M5 16mm bolts (G) and tighten with the 3mm allen key (F). Repeat this process on the other side of the board.
