Here's why you should choose Magiboards:

- We understand that your main business is making signs for your customers, and you may not get many requests for printed whiteboards but when the time comes, we would like you to keep us in mind.
- We are a proven manufacturer of whiteboards, custom printed whiteboards, printed glass boards and whiteboard equipment, with 19 years of experience manufacturing whiteboards.
- We offer standard and custom-sized printed whiteboards. Because manufacturing is done in house, we can customize the size of the board from something as small as a name badge to covering the entire wall.
- Whether your customer needs one whiteboard or multiple whiteboards, we are happy to help with discounted pricing for sign companies.

CUSTOM PRINTED WALL WHITEBOARDS

Our whiteboards are made with a coated steel surface that is dry erasable and dye sublimatable, so the board is magnet receptive, and the image embedded into the dry erase surface. These boards are an excellent tool for offices, schools, hospitals, and manufacturing environments.

Our custom magnetic boards are made with high-quality materials that are built to last. Their magnetic surface allows you to easily attach important documents, notes, and other items to keep them visible and accessible at all times. This feature is especially useful for project management, as it allows teams to collaborate and share information in a centralized location.

Features

- Dry erase surface which accepts magnetic accessories
- Standard sizes & custom sizes available
- Can be wall mounted in landscape or portrait orientation

Custom Printed Features

- Custom Printed Whiteboard – create your own design.
- Magnetic coated steel surface with 10 year surface guarantee against ghosting.
- Dye sublimation printing process - No films or laminates.
- Easy to keep clean, no creasing, delaminating or bubbles
- Digital proofing and amendments included in the price of Art/Graphic Setup Fee.

Our standard whiteboards feature a silver aluminum frame.

For more frame options see next page.

FRAME OPTIONS - WOOD/ALUMINUM

Custom framing options are now available. While our standard silver aluminum framing looks great, we are now able to offer black aluminum framing or wood frames in three popular colors.

The black aluminum framing is powder coated. The distinctive black frame provides a high contrast look to the printed whiteboard surface.

Wood frames are available in three popular colors: Walnut, Cherry and Natural. The wood frames bring warmth to your project.

These framing options allow you to match your whiteboard to the style of your office or facility.

Wood Frame Features:

- Frame width: 3/4"
- Custom sizes available
- Durable, sturdy wood construction
- Standard popular colors available (Walnut, Cherry & Natural)
- Gives you variety for a different look
- Match your décor with these stylish frames

CHANGEABLE GLASS BOARDS

Durable yet elegant, our changeable dry erase glass boards will elevate a space to a new level of refinement and accuracy. Ghosting or staining becomes a thing of the past with these glass boards. The ease of erasing on the glass is a huge benefit.

Our changeable glass boards come with a plain white foam insert that can be printed on one side or both. We can provide printed inserts, or you can make these yourselves. If your customer ever has a need to change the graphics on the insert there will be no need to replace the glass board, you can make a new insert at a lower cost than purchasing a new board.

The mounting hardware allows for the glass board to stand off the wall using 4 simple mounting anchors. The sleek modern appearance with a frameless edge will complete your room with an air of unmistakable style. The inserts make it easy to totally swap out pre-printed graphics.

Excellent for Hospitals

- Lightweight inserts that are easy to install
- 2-sided inserts eliminate the inconvenience of storing "the other version"
- Excellent solution for bi-lingual options
- Re-branding or re-purposing of a room is no problem for this product. Easily replace the insert.
- Frames stays in place for years to come
- Low-cost solutions
- Purchase newly updated graphics without having to replace the entire board.
- Can be mounted Landscape or Portrait
- Available in sizes:
18" x 24", 24" x 36", 36" x 48"
- Custom sizes available

GLASS WHITEBOARDS

Glass whiteboards represent the pinnacle of durability and sleek design. They resist stains and ghosting entirely, can last indefinitely with proper care, and provide a modern aesthetic to any office space. Glass boards can also be magnetic and printed. The main considerations for glass whiteboards are their higher price point and heavier weight, requiring secure mounting.

When considering durability, think about the amount of daily usage each whiteboard will undergo and the conditions of their environment. A glass whiteboard, with its durable surface, is a great benefit for high traffic areas that are used frequently. It's an investment in long-term functionality and aesthetic preservation of your office space.

Features:

- No ghosting
- Magnetic option available
- Tempered low iron glass
- Resists stains and ghosting
- Magnetic surface allows for hanging of papers and more
- Requires rare-earth magnets
- Custom sizes and printing available!

Presenting the perfect collaborative addition to any modern office, hospital or conference area with these Magnetic Wall-Mounted Glass Boards. Their sleek, frameless design elevates the look of any room while still providing a durable, functional surface for use with wet and dry erase markers. Made of sturdy tempered glass, they resist stains and ghosting. A magnetic surface also doubles as a convenient bulletin board.

A glass whiteboard, with its durable surface, is a great benefit for high traffic areas that are used frequently.

SLIDING WHITEBOARD RAIL SYSTEM

Our sliding rail system gives you double or even triple the writing surface when space is limited without cluttering up wall space.

Magnetic Whiteboard Sliding Rail Systems are available with plain or Murerase® custom printed whiteboards.

Our dye-sublimation process permanently embeds the image into the coated steel. They will never delaminate, peel, or blister.

The whiteboards on a sliding rail system are available in sizes up to 72" long.

The actual rail for the rail system can be made to any length to accommodate the size of your wall. The rail system can accommodate up to three dry erase boards which can be stacked one in front of the other.

The three-board system includes one board attached to the wall and two overlapping boards on separate tracks. Each rail-mounted board is free to move on its own track so that the boards can be displayed at the same time. The front track mounted board can hide the back track and wall mounted board, so that only the board in the front is visible. The wall mounted whiteboard can be made to any length to meet your specific requirements.

FEATURES

- Professional looking end product
- Many uses for professionals from teachers to warehouses to board meetings
- Can hide and show info by moving the boards so that they are over top of the back whiteboard
- Accepts all magnetic accessories
- Top quality magnetic dry erase writing surfaces
- We can customize with your graphics with a dye sublimation printing process to embed the graphics into the dry erase surface. This process produces a very professional finished look that resists chipping and fading
- Customizable

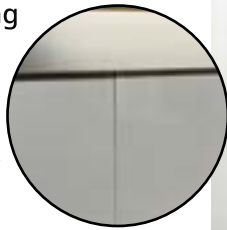

LARGE CUT AND JOIN WHITEBOARDS

The advantages of a full wall whiteboard are apparent. It is part of the business culture today that the conference room will have an extra-large whiteboard that covers most of the wall.

Our whiteboards can be plain or custom printed with a high-quality dye sublimation process.

The Splice and Join System is a popular choice for oversized whiteboards. We can manufacture the whiteboard panels in any size up to 4' x 8'. These panels are assembled on site to your custom specifications.

The benefit of this system is that it reduces the size of the packaging therefore reducing shipping costs. When delivered, the boards are easily installed by joining the boards together which creates a hairline butt seam.

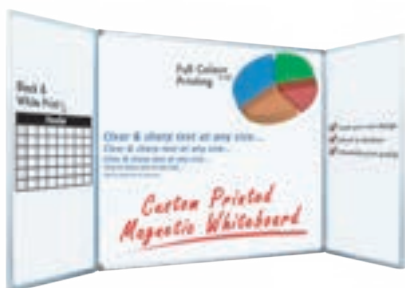

FEATURES

- Create a large whiteboard size suitable for your needs
- Looks professional with our clear anodized aluminum framing
- Allows a very large board to get through doors, corridors and elevators
- Maximum 8 ft. height, the width can be as wide as you like
- Lower shipping costs than sending a pre-assemble extra-large board
- Accepts all magnetic accessories
- Available with top quality magnetic dry erase writing surfaces
- We can customize with your graphics with a dye sublimation printing process to embed the graphics into the dry erase surface. This process produces a very professional finished look that resists chipping and delaminating

WING BOARDS - WALL & MOBILE

Magnetic Folding Wall Mount Wingboards

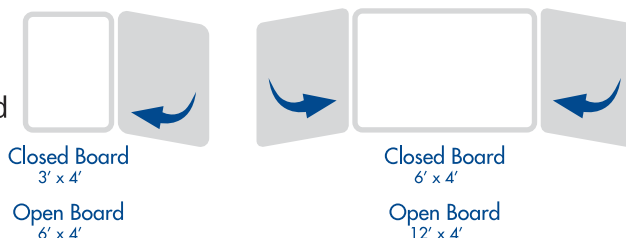

Magnetic Folding Wingboards are ideal for areas which are tight on space or if you need to temporarily hide information from public view. A whiteboard mounts to the wall. Two hinged wings, on the whiteboard, can fold out or be closed against the mounted whiteboard.

FEATURES

- Dry erase surface which accepts magnetic accessories
- Choice of 1 or 2 wing configurations
- Small discreet magnets keep the wing in place when closed
- Standard sizes & custom sizes available
- Sizes quoted are with the wings closed
- 1 Foot wide mini wings are also available
- Multiple Dry Erase surfaces that can be plain or printed

Example size diagram

Possible Wall Mount Configurations:

- 3' x 2' with 1 mini wing or 1 wing
- 3' x 4' with 1 mini wing or 1 wing
- 4' x 3' with 1 mini wing or 2 wings
- 4' x 4' with 1 mini wing or 2 wings
- 6' x 4' with 1 mini wing or 2 wings
- Customizable

Magnetic Wingboard on Mobile Stand

Magnetic Wingboard on Mobile Stand is a great visual management tool, with up to 5 surfaces to write on giving you the space you need to design, develop and organize your work. The closing wings are ideal for temporarily hiding information, such as in a school, hospital waiting room or warehouse floor.

Features

- The board can be plain or print on 1 to 5 surfaces
- 2 Wing configurations with 5 whiteboard surfaces
- Dry erase surface which accepts magnetic accessories
- Small discreet magnets keep the wings in place when closed
- Standard sizes & custom sizes available
- Supplied with non marking glide easy wheels, 2 of which are lockable

Possible Mobile Configurations:

- 4' x 3' closed | Open 8' x 3'
- 4' x 4' closed | Open 8' x 4'
- 5' x 4' closed | Open 10' x 4'
- Customizable

REVERSIBLE MOBILE WHITEBOARDS

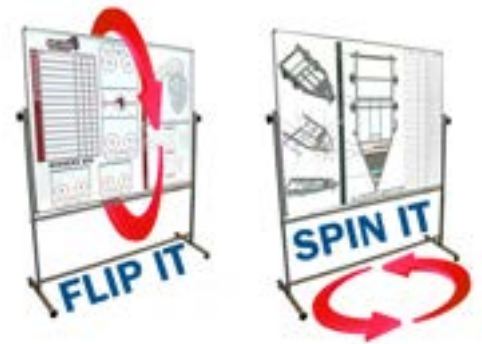

Standard Sizes (Whiteboard)

- 3' x 4'
- 4' x 3'
- 4' x 4'
- 5' x 4'
- 6' x 4'
- 8' x 4'
- Customizable

These Mobile Whiteboard comes with an option to have your own custom printed design on one or both sides.

Mobile whiteboards on a stand offer great flexibility with your workplace. Mobile revolving whiteboards on a stand are even better, with the whiteboards capable of revolving through 360 degrees. The fixed version is in a fixed position and cannot be flipped over like the reversible model.

Features

- Magnetic surface: Magnetic steel mobile dry erase whiteboard with custom print option
- Reversible or Fixed Version
- Reversible version can flip and has a special locking handle to fix the board firmly in place
- The mobile double sided whiteboard stand rotates through 360 degrees
- Both have non marking glide easy wheels. When the board is in use, the two wheels are lockable, locking the board firmly in place
- Choice of a single or double sided mobile whiteboard. Boards with 1 side print have a plain, magnetic, dry erase whiteboard on the reverse side
- Includes all hardware and a set of easy to assemble instructions
- Overall height including stand is 7'
- Custom sizes and configurations are available

FIXED WHITEBOARD ON DESIGNER OR HEAVY DUTY T-SLOT MOBILE STAND

A Fixed Whiteboard Mobile Stand has heavy duty mobile frame and is a top of the range mobile whiteboard. The standing whiteboard is in a static fixed position and the sturdy designer stand has four heavy duty wheels. Two of the wheels are lockable to allow you to keep the stand firmly in place when writing on the whiteboard.

The Fixed Whiteboard on Designer Mobile Stand version can be supplied with a base panel with a second double sided magnetic whiteboard. The base panel can be in a wood veneer panel to match in with your office furniture, adding a touch of chic to your presentations.

Features for Both Versions

- Magnetic whiteboard in a fixed position
- Coated steel surface accepts magnetic accessories
- 10 year surface guarantee against ghosting
- Double sided whiteboard is standard
- Custom Printing available on one or both sides
- Printing uses dye-sublimation printing, so all graphics embed directly into the whiteboard surface.
- Extra robust 1" x 1" aluminum frame
- Four wheels (Two Lockable)
- Custom sizes available

Heavy Duty Version has Three Standard Sizes

- 3' x 4', 4' x 4', & 4' x 6'
- Total height of stand is 6' 4"

Designer Version has Two Standard Sizes

3' x 4'

- The top panel is 3' x 4', The base panel is 3' x 2' and the overall measurements including the stand are 3' 1" wide x 6' 5" high

4' x 4'

- The top panel is 4' x 4', The base panel is 4' x 2' and the overall measurements including the stand are 4' 1" wide x 6' 5" high
- Supplied with additional base panel in wood veneer or whiteboard

MOBILE WHITEBOARD MEETING STATION - MIDI / MAXI

The mobile meeting station whiteboard solutions are manufactured using 3 double sided magnetic whiteboards with a 1" aluminum frame, for a modern and sleek finish.

The 1" aluminum frame is very sturdy and has a modern sleek finish. The 1' circular wheel plates (4) are steel and come with 3 heavy duty wheels. One of the wheels are lockable.

Two sizes available: Midi - half panels. Maxi - full panels.

The meeting station is double-sided.

Features

- Create your own whiteboard design
- Excellent magnetic steel writing surface
- Available in 2 sizes (Midi & Maxi)
- 3x Double-sided whiteboards
- Our boards are printed using dye-sublimation printing, with no vinyl overlays making it easy to clean!
- Dry erasable
- Usable with standard whiteboard marker pens
- Wheel plates supplied with 3 x heavy duty wheels per base, 1 of which is lockable
- 10-year surface guarantee against ghosting
- Delivered with instructions
- Custom sizes available

Midi Size Dimensions

- The central panel is 6' wide x 4' high and both side panels are 4' x 4' giving an overall writing surface of 14' wide x 4' high (112 sq/ft total). The total stand size is approximately 15' 5" x 6' 3".

Maxi Size Dimensions

- Each double-sided whiteboard panel is 4' wide x 6' high, therefore giving an overall writing surface of 12' wide x 6' high (144 sq/ft total). The total stand size is approximately 13' 5" wide x 6' 3" high.

HUDDLE BOARD ROTATING 3 OR 4 SIDED WHITEBOARD

Huddle Board Rotating 3 or 4 Sided Murerase® Custom Printed Magnetic Whiteboard is a 3 or 4 sided magnetic steel whiteboard that rotates through 360 degrees. The whiteboard on stand has a sturdy central pole and flat base. The “Huddle Boards” are ideal for call centers, information points and manufacturing production environments.

Mobile whiteboards on a stand offer great flexibility for a workplace. Options include **Size** (Midi or Maxi) and **Sides** (3 or 4). All sides can be **printed** or **plain**. There is also an option for **heavy duty wheels** to be installed. The stands are fitted with 5 wheels with 2 of them lockable.

Custom Printed Option

You have the option to print on 1, 2, 3 or all four sides. We generate the artwork for you or you can provide the artwork. The price includes artwork generation, digital proofing, revisions, sign off of digital proof before production and delivery to a business address.

Two Overall Size Options

- Midi Size: 6' 6" H with 2ft circular base, Whiteboards are 2' x 4'
- Maxi Size: 6' 6" H with 2ft circular base, Whiteboards are 2' x 6'

Base and Total Unit

The grey powder coated steel circular base is 2' in diameter and is totally flat to avoid any tripping hazards. The total height of the unit is just over 6' 6". The whiteboards mount to heavy duty plates with a heavy duty locking nuts so it fixes securely at the top.

Features

- Create your own whiteboard design
- Excellent magnetic steel writing surface
- The top portion rotates 360 degrees
- Dry erasable
- Our boards are printed using dye-sublimation printing, with no vinyl overlays making it easy to clean, like a normal whiteboard!
- Usable with standard dry erase markers
- Available with (5) heavy duty wheels. (2) are lockable
- 10-year surface guarantee against ghosting
- Delivered with easy to follow instructions

You can upgrade your whiteboard with stand to have heavy duty wheels.

MAGNETIC MOBILE CUBE WHITEBOARDS

Mobile Whiteboard Cube Midi/Maxi

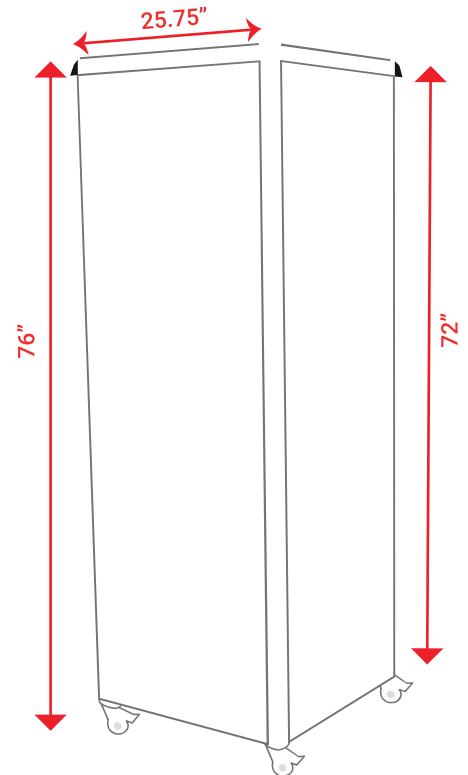

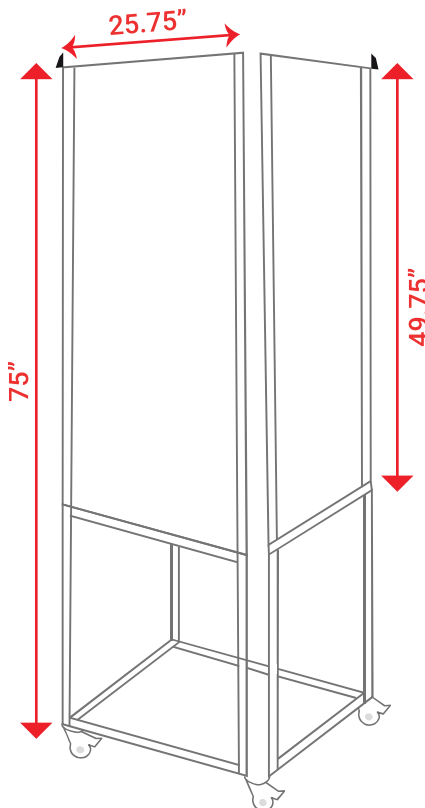

Mobile whiteboard cubes are great for displaying key messages and can be moved to different areas as needed. The whiteboard cubes are often used in manufacturing areas for safety meetings, tracking production, and displaying key messages. Each of the 4 sides are magnetic whiteboards that can be plain or printed with a 10 year surface guarantee against ghosting.

Features

- 4 sided whiteboard solution
- Midi whiteboards measures 2' x 4' (w x h)
- Maxi whiteboards measures 2' x 6' (w x h)
- Supplied with 4 x heavy duty wheels, 2 are lockable
- Accepts magnetic accessories
- Printed or plain options available
- Also available with cabinet option, see page 13

- 3 Shelves including base
- Made up of four 2' x 6' whiteboards
- Total size is 25.75"w x 76"h

DOCUMENT HOLDERS

Solo Magnetic Document Holder Window Frame

Magnetic document holder windows are great for keeping papers in place and preventing unwanted tampering, as well as give a professional look to your whiteboard. There are magnetic strips on the back of three of the borders which allows for the paper holder to stick to any magnetic surface and also means that putting in the sheets and taking them out is a very simple operation.

Tabloid

Letter

Solo Magnetic Document Holders

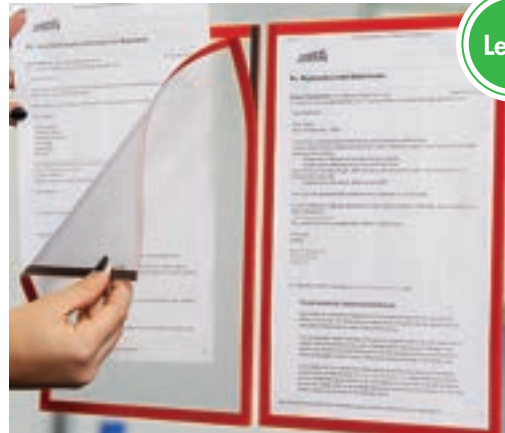

- Sizes Available (Quantity): Tabloid 12.5" x 17.3" (pack of 6) & Letter 9" x 12.5" (pack of 12)
- Colors Available: Black, Blue & Red

Duo Self Adhesive Document Holder Window Frame

Our self adhesive windows are designed to be used on any smooth surface, such as windows, doors or whiteboards. When used on a glass surface, the document holder can be a two-sided display. Once applied to a surface the window stays firmly in place and is non removable.

Tabloid

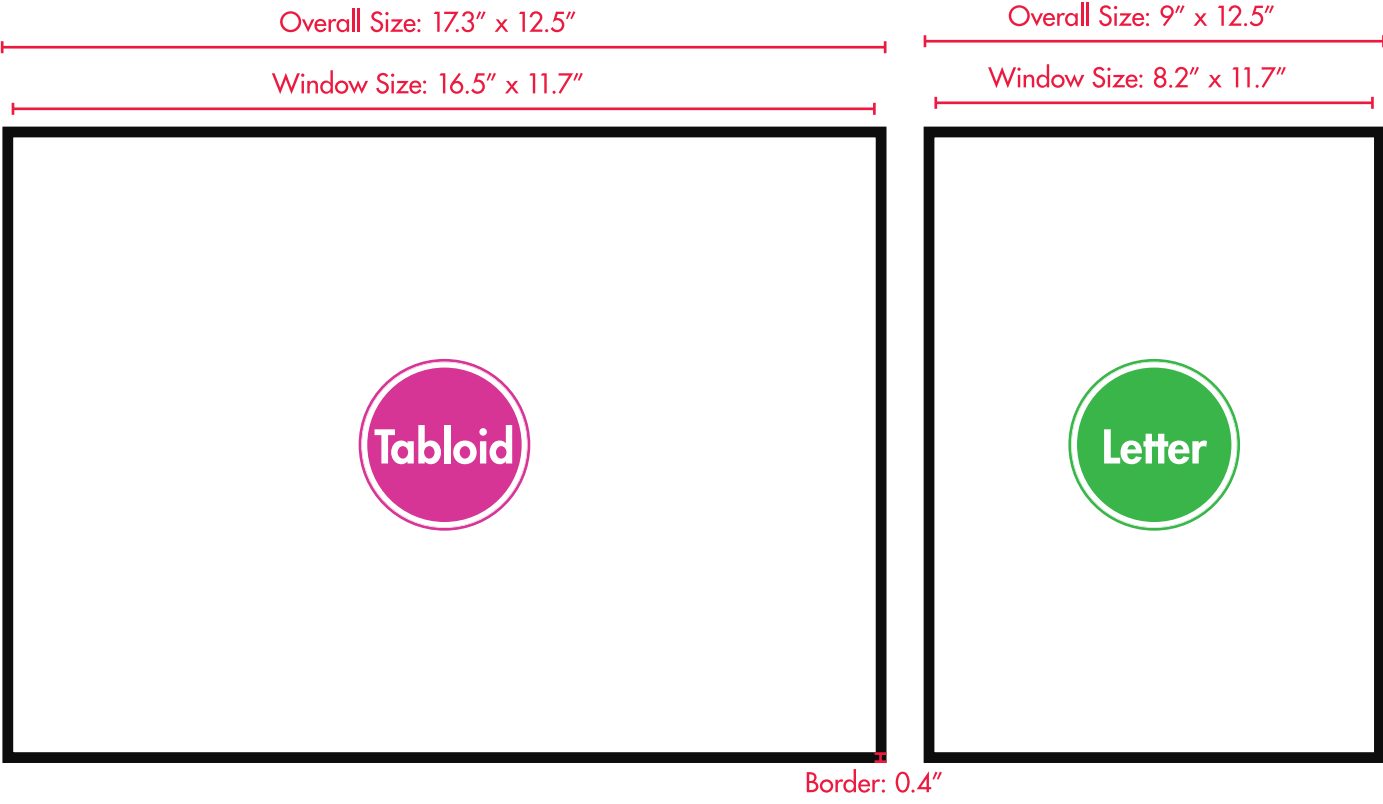

Letter

Duo Self Adhesive Document Holders

- Sizes Available (Quantity): Tabloid 12.5" x 17.3" (pack of 3) & Letter 9" x 12.5" (pack of 6)
- Colors Available: Black, Blue & Red

DOCUMENT HOLDERS

Document Holder Windows Sizes

Solo Magnetic Hazard Warning Document Holder

Paper holder windows with a hazard marking border are widely used in factories and are ideal for displaying Health & Safety notices or other important information. There are magnetic strips on the back of three of the borders which allows for the paper holder to stick to any magnetic surface.

Solo Magnetic Hazard Warning Document Holders

- Sizes Available (Quantity): Letter 9" x 12.5" (pack of 4) and Tabloid 12.5" x 17.3" (pack of 2)
- Colors Available: Black/Yellow, Red/White, Green/White (only Letter)

OUR PROCESS

Our Printing Process

We use a process known as 'dye sublimation printing'. Dye sublimation printing is a process whereby a negative of the image is printed on special transfer paper. The ink is then heated to a gas in a heat transfer press and absorbed **into** the surface of the magnetic dry erase whiteboard. The graphics are embedded in the whiteboard.

The Benefits Are:

- High quality print
- Totally smooth, clean surface
- Easy to keep clean and offers a longer life span
- No vinyl overlays - Ideal for food manufacturers, hospitals and other environments where cleanliness and reducing the risk of germs is high priority

How to Order a Custom Printed Whiteboard

Creating and ordering your own custom printed whiteboard has never been easier! We've created this simple 4-step guide as a path through the process. With high quality print, a 10 year surface guarantee against ghosting, there's never been a better time to create your own custom printed magnetic whiteboard.

**STEP
01**

Simply send us the size board you require and quantity, along with a brief description / sketch / mock up of your design

**STEP
02**

You will receive a quotation for your order, including artwork generation, digital proofing and the cost of delivery

**STEP
03**

Having approved the quote and placed your order, we will then create your artwork and send you a digital proof for approval or revisions. There are no additional costs at this stage

**STEP
04**

Upon approval of the digital proof, your order will go to production. The typical lead time is 2 - 3 weeks from sign off of the digital proof. **Get ready for delivery!**

Contact Us

(888) 393-7795

"My dad received the whiteboard yesterday and was blown away. He loves it and instantly set to work with it. Huge thanks to you and your team for an awesome product. I can already tell it will be gainfully employed for years."

-Dan

"As a returning customer to Magiboards, I am very happy with the custom printed whiteboard that you designed for me. It is excellent quality as ever and I already want to order another board."

-David R.

"We had a wonderful experience with Magiboards. Fabulous 5-star customer service experience."

-Matt Crawford

"Hi, I received the board today and it blew my expectations out of the water. Thank you for that. I would like to order another, same design and all."

-Silas Stevens, Asama Coldwater Manufacturing

"We were really impressed with the whiteboard you produced for us. The service was brilliant, and the sales team was extremely helpful."

-Gemma B.
